

# System "Easy Slide"

## 3-Point Sliding Door Lock #6134-50

### Features:

- 3 Point locking at the jamb.
- With additions, will accommodate any height door.
- Many styles and finishes to choose from.
- Will fit 1-3/4" to 2-1/4" thick doors.
- 96" length is standard. Cut to adjust length.
- 2" backset.

### To Lock:

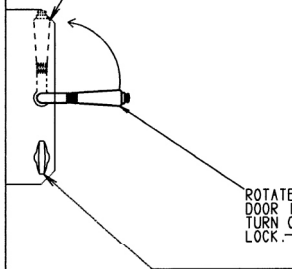

- With lever in vertical position (pointing up), slide door closed.
- Rotate lever down in horizontal position. This will engage all 3 locking points.
- Rotate thumb turn cylinder to lock all points into place.

### To Unlock:

- Rotate thumb turn cylinder back to unlock points.
- Rotate lever up to the vertical position. This will disengage all locking points.
- Use the lever in the vertical position as a door pull to slide the door open.

ROTATE LEVER UP. DOOR CAN BE OPENED.  
USE LEVER AS A DOOR PULL.

ROTATE LEVER DOWN WHEN  
DOOR IS CLOSED. WHEN  
TURN CYLINDER TO  
LOCK.
